

Eastern Flank Well Completed By Sklar At Little Cedar Ck.

Sklar Exploration Co., LLC, Shreveport, La., has completed a directionally drilled well on east flank of Little Cedar Creek Field in southern Alabama's Conecuh County.

Production was established at No. 1 Craft-Ralls 4-12 NW SW Section 4-4N-13E. The well flowed 104 barrels 43.3-gravity oil and 74,000 cubic feet of gas per day through an open choke with flowing tubing pressure 3750 pounds. Production is from pay in Smackover through perforations 11,164-172 feet.

Total depth is 11,325 feet and 5 1/2-inch casing was run to 11,224 feet for completion.

Rapad Drilling & Well Service, Inc., Jackson, Miss., handled contract.

At north offset to the new producer, Sklar Exploration earlier drilled No. 1 Craft-Ralls 4-5, SW NW Section 4-4N-13E.

A Smackover completion, the well flowed 453 barrels 47-gravity oil, 492,000 cubic feet of gas and 12 barrels water per day through a 22/64-inch choke with flowing tubing pressure 150 pounds.

Completion was from pay in Smackover through perforations 10,962-988 feet. Total depth is 11,140 feet and 5 1/2-inch casing was run to bottom.

About 3500 feet northeast of the No. 1 Craft-Ralls 4-12, Sklar is waiting on orders at No. 1 Craft-Ralls 4-2, NW NE Section 4-4N-13E. Hole was drilled to 11,155 feet in sidetrack and cased to total depth. Perforations at 10,923-932 feet were tested but no information released.
