

Prepare To Complete Smackover Test In Little Cedar Ck. Area

Sklar Exploration, Co., LLC, Shreveport, La., has fractured and is preparing to complete a Smackover well on northeast flank of Little Cedar Creek Field in southern Alabama's Conecuh County.

Completion will be from a nine-foot section of perforations in Smackover at 11,923-932 feet in the company's No. 1 Craft-Ralls 4-2, NW NE Section 4-4N-13E.

Drilled to a depth of 11,236 feet in sidetrack, shows were encountered in Smackover and string of 5 1/2-inch casing was run to total depth for completion.

The original hole was drilled to 11,236 feet. Cores were reported to have been cut but no details on recovery are available. Hole was plugged back to 7900 feet and side-tracked.

One-half mile southwest of the current test, Sklar earlier completed No. 1 Craft-Ralls 4-5, SW NW Section 4-4N-13E. A Smackover completion, the well flowed 453 barrels 47-gravity oil, 492,000 cubic feet of gas and 12 barrels water per day through a 22/64-inch choke with flowing tubing pressure 150 pounds.

Completion was from pay in Smackover through perforations 10,962-988 feet. Total depth is 11,140 feet and 4 1/2-inch casing was run to bottom for completion.
