

Sklar Spots Smackover Test East Of Limits Of Little Cedar Ck.

Sklar Exploration Co., LLC, Shreveport, La., has spotted location for a Smackover test east of the nearest completed well on northeast flank of Little Cedar Creek Field in southern Alabama's Conecuh County.

Drilling is planned for the No. 1 Craft-Ralls 5-8, SE NE Section 5-4N-13E.

Drill-site is two miles west and slightly south of Melrose and three-quarters of a mile east of the nearest completed producer.

Proposed depth is 11,600 feet with contractor not known.

At southwest offset to the latest location, Sklar has perforated 11,044-076 feet and is waiting on potential at No. 1 Craft-Ralls 5-10, NW SE Section 5-4N-13E. Hole was drilled to 11,200 feet and has 5 1/2-inch casing to bottom.

Nearest producing well lies three-quarters of a mile west of the new location where Sklar completed No. 1 Craft-Cedar Creek Land & Timber, Inc. 5-5, SW NW Section 5-4N-13E.

Productive from perforations 10,960-970 feet in Smackover, the well pumped 95 barrels 40-gravity oil per day.

When the well was logged in April of 2006, the location was about two miles northeast of the nearest production in Little Cedar Creek Field.
